Profile

Experienced entrepreneurial full-stack software engineer bringing forth over 5 years of experience serving as an effective problem-solver across multiple industries while delivering products to customers and businesses. Adept at deep diving into problem domains and using software solutions to enhance product needs that require them.

Employment History

Senior Software Engineer, One Finance & Investments, Lagos, Nigeria

JUNE 2019 – PRESENT

- Built a B2B product for the company, that would become the backbone of lending for a slew of businesses.
- Developed an SME lending product to provide market competing interest rates for businesses.
- Built two internal web based products and an internal service for a critical third party integration as serverless platforms.

Lead Engineer, Jara Mobile, Lagos

AUGUST 2018 – MAY 2019

- Led product redesign to a web-first approach, increased sign-ups by 200%.
- Utilized the modern paradigms to implement a scalable backend infrastructure.
- Built a progressive web app with a modern JavaScript framework.
- Lead a team of 3 engineers to deliver the B2C product on time and to specification.
- Managed all technology related KPIs; related the technical decisions and trade-offs to non-technical founders.

Full Stack Engineer, The Muse | Andela, New York | Lagos

NOVEMBER 2015 – APRIL 2018

- Implemented the Coach Connect Platform as a React TypeScript; a mini market place connecting job seekers and experts.
- Developed API endpoints and corresponding services for our Partner dashboards.

Junior Engineer, Segovia | Andela, New York | Lagos

JANUARY 2015 – JUNE 2015

- Built a prototype hybrid application with Ionic and Loopback to simulate the secure disbursement and redemption platform.
